We're opening our doors for students to learn all about skilled trades careers!

The MRCC's Career Day is a chance to bring your students to our state-of-the-art training center, where they can learn what it takes to become a carpenter, floor-layer, millwright, pile-driver, solar installer, and more.

Students will hear directly from our instructors, staff, and apprentices. Tour our hands-on training areas and have the opportunity to use our virtual welder and basic tools. This experiential career readiness opportunity will empower students to make informed decisions about their post-secondary pathway, including the option of a debt-free, earn-while-you-learn apprenticeship that leads to a lucrative, rewarding career building Michigan's future. Lunch is provided.

LET'S BUILD THE FUTURE

Detroit Carpenter and Millwright Training Center

April 11, 2024 • 11687 American Ave., Detroit, MI 48204
