

## Mrs. Harmon 6<sup>th</sup> grade Science and Skills Seminar Syllabus

Contact Information: [harmon@idaschools.org](mailto:harmon@idaschools.org)

734-269-9003 Ext 2033

**Communication:** Planners, School e-mail

Please check and sign the planners daily after reviewing the student work.

**Grades:** Infinite Campus

**Curriculum:** Life Science and Science Skills

**Assessments:** Both formative and summative assessments will be given. Formative are grades given for assignments, activities, and quizzes that guide learning toward the goal. Summative grades are activities, tests, and projects that show if the concepts and skills have been mastered.

### **Student Responsibilities**

- Be respectful to yourself, teachers, and peers.
- **Relax.** Please don't get stressed. Ask clarifying questions when you need help or don't understand
- Come to class on time and prepared with all materials needed.
- Complete your assigned work by the due date.
- Study vocabulary and concepts as they are learned and review them often so that you are prepared when a test comes. Cramming isn't learning.

### **Parent/Caregiver/ Family Responsibilities**

- **Please don't get stressed. Communicate** with me if you or your child is struggling.
- Help your child establish and follow regular daily routines
- Review work assigned. Encourage them to tell you about what they are learning. Study vocabulary and concepts in the notes often to promote deep learning.
- Encourage your children to eat healthy, exercise, and **get enough sleep.** Keep regular bedtimes.
- **Set sensible time limits for technology use. I suggest making sure there is No Access to technology during the night.**
